American Legion Donald C. Monroe Post 944	20 Thompson Street	Kings Park	NY	11754	Renovation of veterans facility	Funding will be used to renovate the Post's facility to ensure public safety and promote accessibility.	\$25,400	This project is a valuable use of funds because it will renovate a veterans' facility in Kings Park, NY to ensure public safety and promote accessibility.	
Brookhaven Memorial Hospital Medical Center	101 Hospital Road	Patchogue	NY	11942	Brookhaven Breast Cancer Coalition	Funding will establish the Brookhaven Breast Cancer Coalition (BBCC) to help patients focus on treatment and wellness after a diagnosis of breast cancer. There is no organization serving as a support system in this community. The BBCC will be a volunteer driven program that will provide a wide array of services such as assistance with medical needs, household chores and tasks, support groups, therapy and counseling, transportation to medical appointments.	\$100,000	This project is a valuable use of funds because it will establish a Brookhaven Breast Cancer Coalition (BBCC) to help patients focus on treatment and wellness after a diagnosis of breast cancer.	www.brookhavenhospital.org
Brookhaven National Laboratory	N/A	Upton	NY	11973	General Plant Projects	SEC. ###. GENERAL PLANT PROJECTS. Plant or construction projects for which amounts are made available under this and subsequent appropriation Acts with a current estimated cost of less than \$10,000,000 are considered for purposes of section 4703 of Public Law 107-314 as a plant project for which the approved total estimated cost does not exceed the minor construction threshold and for purposes of section 4704 of Public Law 107-314 as a construction project with a current estimated cost of less than a minor construction threshold.	N/A	This project is a valuable use of funds because allowing the national laboratories to address a greater number of basic maintenance and small-scale infrastructure problems and reduce the backlog of laboratory infrastructure needs. In doing so, this provision will reduce operating costs at the labs and improve safety.	www.bnl.gov
Catholic Health Services of Long Island, Continuing Care Division	245 Old Country Road	Melville	NY	11747	Health Information Technology Initiative	The Continuing Care Division would obtain and implement a full electronic clinical system to improve patient quality by allowing clinicians real time sharing of care plans, increase patient safety through built in drug database to check for interactions and other automated check points, and streamline workflow to maximize productivity by eliminating duplicative paperwork.	\$500,000	This project is a valuable use of funds because it will improve patient quality, increase patient safety and maximize productivity.	www.chsli.org
Children's Museum of the East End	376 Bridgehampton, Sag Harbor Tpke; PO Box 316	Bridgehampton	NY	11932	Nutrition education program to combat childhood obesity	CMEE will implement a multifaceted program designed to teach children about nutrition, diet, and exercise so they can remain healthy and physically active throughout their youth and adulthood. Educating children about nutrition now is vital in light of what health experts describe as an epidemic of childhood obesity.	\$225,000	This project is a valuable use of funds because it will implement a multifaceted program designed to teach children about nutrition, diet, and exercise so they can remain healthy and physically active throughout their youth and adulthood.	www.CMEE.org
Children's Maritime Museum	PO Box 465	Port Jefferson	NY	11777	Maritime exhibit development	Funding will support development of 5 maritime exhibits to demonstrate the Long Island's maritime heritage and educate the public.	\$239,700	This project is a valuable use of funds because it will promote education while demonstrating Long Island's maritime heritage.	www.childrensmaritimuseum.org
Coastal Steward Inc.	6 Audrey St.	Port Jefferson Station	NY	11776	Adopt-A-Beach Program in Suffolk County	The Adopt-A-Beach Program restores coastal and marine habitat by removing approximately 144 tons of debris per year. The program trains volunteers, collects and publishes data on results of the cleanups, and coordinates municipality involvement. Benefits to the community include the improved environment, increased property values, increased tourism, and safer conditions for all user groups. The program emulates the Adopt-A-Highway Programs established throughout the U.S. Staff will be certified by USCG (minimum 50 ton, Near Shore Masters License), OSHA (Hazmat) and PADI (Open Water, Medic/First Aid, Search/Rescue). Data will be used to prevent pollution.	\$1,000,000	This project is a valuable use of funds because it restores coastal and marine habitat by removing approximately 144 tons of debris per year improving the environment, increasing property values, increasing tourism, and improving safe conditions for all user groups.	www.coastalsteward.org
Cold Spring Harbor Laboratory	One Bungtown Road	Cold Spring Harbor	NY	11724	Developing breast and ovarian cancer diagnostic tests	Funding will go towards performing genomic studies on breast and ovarian tumors, which are aimed at developing affordable and informative DNA Biopsy diagnostic tests, and new therapeutic strategies for breast and ovarian cancer.	\$5,000,000	This project is a valuable use of funds because it will assist in developing affordable and informative DNA biopsy diagnostic tests, and new therapeutic strategies for breast and ovarian cancer.	www.cshl.edu
Cornell University	PO Box 217, 192 Old Country Road	Eastport	NY	11941	Duck Research Laboratory	Funding will support Cornell University's Duck Research Laboratory in Eastport. It is an international resource for info on many aspects of duck production including research and biologics production. The laboratory manufactures biologics to protect against most common diseases affecting ducks. Current research emphasizes duck health, focusing on the improvement of diagnostic techniques and the development of new or improved duck biologics.	\$250,000	This project is a valuable use of taxpayer funds because the laboratory manufactures biologics to protect against most common diseases affecting ducks.	www.cornell.edu www.duckhealth.com/ducklab.html

Daniella Maria Arturi Foundation	550 Peconic Bay Blvd	Laurel	NY	11948	Language request - Diamond Blackfan Anemia	NATIONAL HEART, LUNG, AND BLOOD INSTITUTE Diamond-Blackfan Anemia [DBA]- The Committee understands that NHLBI's research initiatives into the rare bone marrow failure disorder, DBA, are yielding important insights into the biology of blood disorders, birth defects and cancer development. It has been reported that one of the breakthrough discoveries has been DBA's identification as the first human disorder linked to a ribosomal protein defect. The Committee understands that prior to the DBA discovery, changes in the ribosomal protein gene expression were considered inconsequential and mostly ignored. However the DBA discovery has revealed that the ribosome, as a fundamental unit of cellular function, may now be implicated in a wide range of other diseases including cancer. The Committee commends the NHBLI for its attention to this important area of disease research and strongly encourages NHLBI to continue investigating this breakthrough discovery to understand the role of ribosomal proteins in DBA and related marrow failure diseases.	N/A	This project is a valuable use of funds because it will applaud and continue to encourage the National Heart Lung Blood Institute's efforts to further investigate the role of ribosomal proteins in Diamond Blackfan Anemia (DBA) and related bone marrow failure diseases and its fundamental impact on red cell development.	www.dmaf.org
Disabled American Veterans Transportation Network	79 Middleville Road	Northport	NY	11768	Purchase vehicles to transport disabled veterans to medical appointments	The transportation network at Northport VA Medical Center has logged over 650,000 miles and transported over 60,000 veterans to medical appointments around Long Island free of charge to the veteran. Funding will be used to purchase vehicles to transport veterans and disabled veterans to their medical appointments.	\$500,000	This project is a valuable use of funds because it will support the transportation of American veterans to medical appointments around Long Island free of charge to the veteran.	www.davtnorthport.org
Dominican Sisters Family Health Service	103-6 West Montauk Hwy.	Hampton Bays	NY	11946	Quality Nurse Transition Coordinator (QNTC) program	Patients with complex health care needs frequently care from different providers in multiple settings, resulting in fragmented and poorly executed transitions. The Quality Nurse Transition Coordinator (QNTC) program is a patient-centered transitional care intervention designed to meet the needs of the elderly population focuses on patient education, communication, clinical documentation and quality.	\$544,500	This project is a valuable use of funds because it will meet the needs of the elderly population focuses on patient education, communication, clinical documentation and quality.	http://www.dsfs.org
Dowling College	150 Idle Hour Blvd	Oakdale and Shirley	NY	11769	Study effects of metal nanoparticles on Long Island crop productivity	Nanoparticles are entering commercialization due to their unique properties (cosmetics, fabrics, personal care products). The number of nanotechnology-based consumer products will increase sharply in the next decade to keep up with demand. Increased use of nanoparticles increases their exposure to the environment. Research suggests they could reduce growth in plants and reduce soil fertility by killing useful bacteria. This project will investigate effects of various metal nanoparticles on productivity of crops grown in Long Island using the native soil.	\$290,000	This project is a valuable use of taxpayer funds because it will investigate effects of various metal nanoparticles on productivity of crops grown in Long Island using the native soil.	www.Dowling.edu
Dowling College	150 Idle Hour Blvd	Oakdale and Shirley	NY	11769	Veteran Workforce Training and Development	As U.S. Military personnel begin returning from the Afghan and Iraq wars, there is a tremendous need for support services relating to workforce training and education. Currently serving fifty Iraq/Afghan War veterans, funding will allow the Dowling College to better serve the immediate and long term educational and workforce needs of Long Island veterans by preparing them for jobs, educational endeavors and other potential career choices. The College would also be able to track, manage and evaluate veteran data throughout the region and work collaboratively with community partners.	\$225,000	This project is a valuable use of funds because it serves the immediate and long term educational and workforce needs of Long Island veterans by preparing them for jobs, educational endeavors and other potential career choices.	www.Dowling.edu
East End Health Alliance	201 Manor Place	Greenport	NY	11944	Health Information Technology Initiative	A centralized data repository (CDR) will facilitate hospital/physician organization and the delivery of regional care based on best practices, advancing quality health care and reducing cost through data coordination.	\$750,000	This project is a valuable use of funds because a centralized data repository will facilitate hospital/physician organization and the delivery of regional care based on best practices, advancing quality health care and reducing cost through data coordination.	healli.org
Economic Opportunity Council of Suffolk, Inc.	31 West Main Street, Suite 300	Patchogue	NY	11772	Montauk Child Care Center programming	The Montauk Child Care Center provides day care services to children ages 6 weeks through 4 years. The center was developed to meet the needs of the community, including support for parents return to work. Funding will support the Center's various programs.	\$275,000	This project is a valuable use of funds because it will provide much-needed support for parents returning to work.	www.eoc-suffolk.com
Family Community Life Center, Inc.	1018 Northville Turnpike	Riverhead	NY	11901	Planned Development District	Funding will facilitate the construction of a Planned Development District (PDD) in the Town of Riverhead including workforce housing and a community center complex.	\$330,000	This project is a valuable use of funds because it will facilitate the construction of a Planned Development District in the Town of Riverhead including workforce housing and a community center complex.	www.fclclongisland.org

Goodwill Industries of Greater New York and Northern New Jersey	4-21 27th Ave	Astoria	NY	11102	Bridgehampton Career Academy	Established to build collaborations between employers, educators, and students to prepare for the workforce for tomorrow. Long Island Works developed career academies to cement the connection for young people between school and work. The flagstone career academy in Suffolk County is the Environmental Design Academy in Bridgehampton exposing students to internships, job shadowing and mentoring. Funding will support programming at the Bridgehampton Career Academy	\$162,129	This project is a valuable use of funds because it will support programming at the Bridgehampton Career Academy, exposing students to internships, job shadowing and mentoring.	www.goodwillny.org
Guild Hall of East Hampton, Inc.	158 Main St.	East Hampton	NY	11937	museum programming	Funding supports a museum and community center programming for a diverse, year-round population.	\$100,000	This project is a valuable use of funds because it supports museum and community center programming for a diverse, year-round population.	www.guildhall.org
Hallockville, Inc. dba Hallockville Museum Farm	6038 Sound Ave	Riverhead	NY	11901	Facility improvements	Hallockville is a 28 acre not-for-profit farm listed on the National Register of Historic Places with a mission to re-connect the community with its shared agricultural heritage. Hallockville plays a key role in educating the community about farming and serves as a model for similar regions throughout the country. Funding will support improvements to a visitor center and restoration of a historic barn	\$448,000	This project is a valuable use of funds because improvements to a visitor center and restore a historic property.	www.hallockville.com
Hampton Bays UFSD	86 Argonne Road East	Hampton Bays	NY	11946	Alternative High School English Emersion Program	Funding supports daily programming geared towards students in danger of dropping out of school. Students have direct teacher instruction, and are highly supported. By June 2010 the program will graduate 56 students who would have dropped out. Program focuses on non-English speaking and ESL students who may struggle in general classes, as well as students who are becoming proficient in English and are expected to pass NYS Regents exams.	\$61,120	This project is a valuable use of funds because it focuses on non-English speaking and ESL students who may struggle in general classes, as well as students who are becoming proficient in English and are expected to pass NYS Regents exams	www.hbschools.us
Hamptons Community Radio Corporation	C/O B. Barri 192 Big Fresh Pond Rd.	Southampton	NY	11968	Public radio station development	Funding will support the development of a 3800 watt radio station to serve the South Fork of Long Island.	\$460,000	This project is a valuable use of funds because it will support public radio on the South Fork of Long Island.	www.hamptonscommunityradio.org/
Harrison Hale Community Action Center dba Gordon Heights Community Center	576 Granny Road	Medford	NY	11763	Youth and Culture Program	Funding will support a youth and culture program to enrich the arts and culture climate of community youth focusing.	\$100,000	This project is a valuable use of funds because it will support a youth and culture program to enrich the arts and culture climate of community youth focusing.	
Island Harvest	199 2nd Street	Mineola	NY	11501	Student nutrition program	Funding will be used to provide 64,000 packs of nutritious food to Long Island schoolchildren who rely on school lunches and breakfasts as their primary source of nourishment, but may not receive a solid meal on weekends.	\$125,000	This project is a valuable use of funds because it will provide 64,000 packs of nutritious food to Long Island schoolchildren who rely on school lunches and breakfasts as their primary source of nourishment, but may not receive a solid meal on weekends.	www.islandharvest.org
John T. Mather Memorial Hospital	75 North Country Road	Port Jefferson	NY	11777	Health Information Technology Initiative	Mather Hospital will implement a state-of-the-art Clinical Information System (CIS) and health information technology equipment necessary to implement an electronic health record to improve patient safety and quality of care.	\$700,000	This project is a valuable use of funds because it will improve patient safety and quality of care.	www.matherhospital.org
Long Island Cares, Inc.	10 Davids Drive	Hauppauge	NY	11951	Food Bank Program	Funding will support the Harry Chapin Food Bank geared towards assisting those who are hungry or food insecure by providing up to a 10-day supply of emergency food to families and individuals in need, providing information and referral services, and support annual training and volunteer development workshops for area food pantries. The Center will also serve as a permanent Food Donation Location for Nassau County residents.	\$200,000	This project is a valuable use of funds because it will assist those who are hungry or food insecure by providing up to a 10-day supply of emergency food to families and individuals in need	www.licares.org
Long Island Council on Alcoholism and Drug Dependence, Inc.	2805 Veterans Memorial Highway, Suite 26	Ronkonkoma	NY	11779	Operation No Veteran Left Behind	Funding will provide veterans direct access to comprehensive mental health and substance abuse assessment and evaluations with seamless transition to appropriate treatment matches and relapse prevention services. Professional trainings will ensure that treatment providers are equipped to handle the specific needs of combat veterans. Workshops will provide veterans an opportunity to process their experiences in a safe environment.	\$400,000	This project is a valuable use of funds because it will provide veterans direct access to comprehensive mental health and substance abuse assessment and evaluations with seamless transition to appropriate treatment matches and relapse prevention services.	www.licadd.org
Long Island Minority AIDS Coalition, Inc.	1045 Route 109 STE. 101	Lindenhurst	NY	11757	Small and disadvantaged business program	Program will target small disadvantaged businesses in the five townships of eastern Suffolk County and assist them with developing partnerships, improving their scope of work, facilitating federal vendor certifications and links to employment.	\$155,000	This project is a valuable use of funds because it will target small disadvantaged businesses in the five townships of eastern Suffolk County and assist them with developing partnerships, improving their scope of work, facilitating federal vendor certifications and links to employment.

Mastic Sports Club	26 Teratin St	Mastic	NY	11950	Provide recreational opportunities for special needs children	Funding will construct and install a fully accessible playground to provide recreational opportunities for the special needs children in the Town of Brookhaven. The playground will benefit all children and facilitate socialization, peer unity, self esteem, confidence and empowerment.	\$300,000	This project is a valuable use of funds because it will support a fully accessible playground to provide recreational opportunities for the special needs children in the Town of Brookhaven.	www.kylesportsforspecialneedsmsc.com
Middle Country Central School District	8 43rd Street	Centereach	NY	11720	Green School Bus Demonstration Project	Working with the Greater Long Island Clean Cities Coalition, this Clean Cities project strives to advance Long Island's economic, environmental, and energy security by supporting Middle Country Central School District's decision to adopt practices that contribute to the reduction of petroleum consumption. This project will purchase of 3 clean fuel Compressed Natural Gas (CNG) school buses to build on its existing fleet of CNG buses. The school district will become a model for other districts in the region. CNG engines are among the cleanest on the planet and lessens our dependence on foreign fuels. The projected total fleet of eighteen buses will displace 32,400 gallons of petroleum per year, and save 26.55 tons of combined diesel related emissions.	\$344,500	This project is a valuable use of funds because it strives to advance Long Island's economic, environmental, and energy security by supporting Middle Country Central School District's decision to adopt practices that contribute to the reduction of petroleum consumption.	www.mccsd.net/
Middle Country Public Library	101 Eastwood Blvd.	Centereach	NY	11720	Miller Business Resource Center	Funding will develop employment, career guidance, marketing and sales training capacity in support of the workforce and small businesses in Suffolk County.	\$300,000	This project is a valuable use of funds because it will develop employment, career guidance, marketing and sales training capacity in support of the workforce and small businesses in Suffolk County.	www.mcpl.lib.ny.us.
Museum of Mathematics	P.O. Box 2191	Setauket	NY	11733	Audio-visual equipment and facility improvements	Funding for interactive audio/visual technology will improve the Museum experience tailoring Museum exhibits for each individual.	\$300,000	This project is a valuable use of funds because it promotes education through interactive learning.	http://momath.org
National Potato Council and Empire State Potato Growers, Inc.	1300 L Street NW	Washington	DC	20005	Potato research to enhance competitiveness	Funding will support university research to help growers remain competitive in the domestic and world marketplace by improve production and quality of potatoes for processing and fresh market. Researchers have developed potato varieties to fill niches in potato industry to overcome production, storage, processing, marketing problems. The program coordinates activities of individual state breeding programs, eliminating waste and redundancies.	\$2,800,000	This project is a valuable use of taxpayer funds because it supports university research to help New York potato growers remain competitive in the domestic and world marketplace by improve production and quality of potatoes for processing and fresh market.	www.nationalpotatocouncil.org/ www.empirepotatogrowers.com/
Naval Sea Cadet Corps	2300 Wilson Blvd	Arlington	VA	22201-3308	Naval Sea Cadet Corps	Congressionally chartered youth development program for ages 11-17, serving 9,000 cadets and adult volunteers in 387 units nationwide. Allows youth the opportunity to explore the maritime option (Navy/USCG) with no obligation. Promotes interest and skill in seamanship and aviation and instills qualities that mold strong moral character in an anti-drug and anti-gang environment. Training onboard Navy and Coast Guard ships and shore stations develops self-confidence and self-discipline, promotion of high standards of conduct and performance and a sense of teamwork. Funds lower out-of-pocket expenses for training. A significant percent of Cadets join the Armed Services.	\$635,000	This project is a valuable use of taxpayer funds because this project will support a Congressionally chartered youth development and education program is focused upon development of youth serving almost 9,000 Sea Cadets and adult volunteers in 387 units country-wide, including the New York (LPD-21) Division, in Northport, New York.	www.seacadets.org
New York State Department of Environmental Conservation	625 Broadway	Albany	NY	12233	Coastal Erosion Hazard Area (CEHA) mapping	Coastal Erosion Hazard Area (CEHA) mapping is necessary to support the mandates of the federal Coastal Zone Management Act of 1972. New York State does not have sufficient funds available to meet the call of local governments and citizens to map these environmentally fragile and often well-populated areas. Federal funds are necessary to modernize and update CEHA maps that are used to minimize damage from coastal storms, flooding and/or erosion.	\$2,933,000	This project is a valuable use of funds because New York State does not have sufficient funds available to meet the call of local governments and citizens to map these environmentally fragile and often well-populated areas.	http://www.dec.ny.gov/
New York State Department of Transportation	50 Wolf Road	Albany	NY	12232	Road sign replacement	This project will replace signs on major state highways in Suffolk County in order to achieve higher retro-reflectivity standards that will enable motorists to clearly read important directional messages during nighttime hours. This will also eliminate the need to light many signs, and thus reduce energy consumption and greenhouse gas emissions.	\$4,400,000	This project is a valuable use of funds because it will enable motorists to clearly read important directional messages during nighttime hours. This will also eliminate the need to light many signs, and thus reduce energy consumption and greenhouse gas emissions.	www.nysdot.gov
New York Structural Biology Center	89 Convent Avenue	New York	NY	10027	Synchrotron Beamline and Experimental Station	Funding will be used to build a next-generation undulator beamline at "NSLS-II", the new synchrotron currently under construction at Brookhaven National Laboratory (BNL). The new beamline will provide critically important capabilities to a large group of scientists engaged in research affecting the health of U.S. military and citizens including defense against biological warfare agents.	\$5,500,000	Funding will be used to build a next-generation undulator beamline at "NSLS-II", the new synchrotron currently under construction at Brookhaven National Laboratory (BNL). The new beamline will provide critically important capabilities to a large group of scientists engaged in research affecting the health of U.S. military and citizens including defense against biological warfare agents.	www.nysbc.org

Parents for Megan's Law, Inc.	1320 Stony Brook Road, Suite 201	Stony Brook	NY	11790	Parents for Megan's Law to institute a Sex Offender Registration Tips (SORT) and Support Programs	Parents for Megan's Law are a nationally recognized organization that partners with law enforcement in the prevention and treatment of childhood sexual abuse through education, advocacy, and victim services. Sex Offender Registration Tips (SORT) and Support Programs will provide up-to-date accurate sex offender registry information to Federal, State and local law enforcement entities and those that supervise sex offenders and will provide the public with two interactive sources for confidentially reporting sex offenders who are failing to comply with registration requirements.	\$500,000	This project is a valuable use of funds because the program will provide up-to-date accurate sex offender registry information to Federal, State and local law enforcement entities and those that supervise sex offenders and will provide the public with two interactive sources for confidentially reporting sex offenders who are failing to comply with registration requirements.	www.parentsformeganslaw.org
Partnership for Mid-Atlantic Fisheries Science	445 Broadhollow Rd., Suite 200	Melville	NY	11747	Summer Flounder and Black Sea Initiative	Partnership addresses science issues relevant to the improved assessment of summer flounder and black sea bass. These species are among the most important recreational and commercial fish in the Mid-Atlantic. Advisory Committee composed of academic scientists, recreational and commercial representatives, and federal and state regulatory partners will design and implement a series of science research programs addressing the most urgent data limitations restricting management of these species.	\$1,500,000	This project is a valuable use of funds because the Partnership addresses science issues relevant to the improved assessment of summer flounder and black sea bass - species that are among the most important recreational and commercial fish in the Mid-Atlantic.	
Research Foundation for Mental Hygiene, Inc. at the New York State Psychiatric Institute	1051 Riverside Drive	New York	NY	10032	Improved Diagnostics and Treatment to Combat Lyme Disease	Lyme disease poses a serious threat to troops as ticks carrying Lyme disease are found in training areas in U.S and deployment areas around the world. The Army has developed new tick surveillance strategies, but no effort has been made to address a lack of adequate diagnostics and effective treatment. Funds for this project will support a multi-institutional research effort to test a new antibiotic regimen, test biomarkers to predict who will to treatment, develop new diagnostic test.	\$1,685,373	This project is a valuable use of taxpayer funds because this project will support a multi-institutional research effort to test a new antibiotic regimen, test biomarkers to predict who will to treatment, develop new diagnostic test.	http://corporate.rfmh.org/
Sea Tow Foundation for Boating Safety and Education	700 Hummel Avenue	Southold	NY	11971	Multiple Port Security Project	Funding will support commercial, interoperable communications and surveillance at high risk ports and marine targets that will allow a consortium of local law enforcement, non-profits, and federal agencies to monitor, operate and control links between land-based communications systems and marine domain security for the area. The project will provide backup to the Rescue 21 System and augment the Automatic Identification System (AIS) to provide improved scrutiny of foreign boat entry to Long Island ports.	\$1,000,000	This project is a valuable use of funds because it will support commercial, interoperable communications and surveillance at high risk ports and marine targets that will allow a consortium of local law enforcement, non-profits, and federal agencies to monitor, operate and control links between land-based communications systems and marine domain security for the area.	www.boatingsafety.com
Shinnecock Indian Nation	Church Street, Shinnecock Indian Reservation (PO Box 5006)	Southampton	NY	11969	Elder care dwelling	The tradition of caring for Shinnecock Elders at home allows them to maintain their dignity, spiritual well-being and social interaction with other community members and family. The positive advances in medicine, enabling longevity of those with chronic diseases and limited mobility have negatively impacted this important aspect of Shinnecock culture. Funding will establish a culturally sensitive Elder Care Facility to preserve family stability, encourage and enhance consistent inter-generational social interaction and maintain self-esteem.	\$625,000	This project is a valuable use of funds because it will establish a culturally sensitive elder care facility to preserve family stability, encourage and enhance consistent inter-generational social interaction.	ShinnecockNation.com
Shinnecock Indian Nation	PO Box 355	Southampton	NY	11969	Shinnecock Shellfish Hatchery and Environmental Center	The Shinnecock Shellfish Hatchery and Environmental Center is an economic development endeavor of the Shinnecock Indian Nation. Using modern technology and cultural knowledge, shellfish are farmed off tribal shores. Construction of a seafood market will provide direct access to the consumer, increase the visibility of the project, generate revenue and increase employment for the tribe.	\$450,000	This project is a valuable use of funds because it will provide direct access to the Shinnecock Shellfish Hatchery for consumers, increase the visibility of the project, generate revenue and increase employment for the tribe.	ShinnecockNation.com
St. Joseph's College	155 West Roe Blvd	Patchogue	NY	11772	Energy efficient windows project	St. Joseph's spends approximately \$120,000 a year to heat O'Connor Hall on their Patchogue Campus. The College plans to install energy efficient windows to reduce this expenditure by as much as twelve to fifteen percent.	\$400,000	This project is a valuable use of funds because it will reduce costs for St. Joseph's Patchogue Campus by install energy efficient windows to reduce energy expenditures.	www.sjcny.edu
St. Joseph's College	155 West Roe Boulevard	Patchogue	NY	11772	Remote Learning Classrooms and laboratory equipment	The Long Island Campus's biology and chemistry laboratories require new equipment including dissecting and compound microscopes, supplies and equipment. St. Joseph's will also use the funding to purchase equipment for two Distance/Remote Learning Classrooms. Instructors will have new ways to work with students through videoconferencing in an interactive communication medium.	\$400,000	This project is a valuable use of funds because it will promote higher education through an interactive communication medium.	www.sjcny.edu

Suffolk County District Attorney	77 North County Complex	Hauppauge	NY	11787	Prosecute gangs transporting and selling illegal firearms	The Suffolk County District Attorney's office is proactively targeting high crime communities with a variety of law enforcement measures, including long term undercover investigations and block-by-block criminal sweeps resulting in an increased number of prosecutions related to gang activity and illegal handgun charges. Funding would be used to supplement the number of prosecutors assigned to criminal cases involving gangs and the use of illegal firearms in the commission of criminal activity to upgrade and enhance surveillance equipment that is used by investigators in long term investigations targeting gangs and their supply of illegal handguns to others.	\$650,000	This project is a valuable use of funds because it will support the prosecution of gangs and other criminals transporting and selling illegal firearms.	
Suffolk County Legislator Kate Browning	1120 Montauk Highway, Suite G	Mastic	NY	11950	Develop a sewer district in Suffolk County	Develop a 400,000 gpd sewer district in the hamlets of Shirley and Mastic at the Brookhaven Calabro Airport in Shirley in Suffolk County to improve the business corridor and repair the Forge River degraded from excess nitrogen from inadequate septic systems. Engineering must be completed in order to submit the plan to New York State for approval and construction. 197 parcels would be serviced.	\$760,050	This project is a valuable use of funds because it will improve the business corridor and repair the Forge River degraded from excess nitrogen from inadequate septic systems.	http://legis.suffolkcountyny.gov
Suffolk County Sheriff's Office	100 Center Drive	Riverhead	NY	11901	Mobile data terminals	Funding will install terminals within existing Suffolk County Deputy Sheriff and Investigator vehicles. Terminals allow for vehicle access to multiple databases including National Crime Information Center databases, New York Statewide Police Information Network databases, Department of Motor Vehicles databases and local Suffolk County databases.	\$500,000	This project is a valuable use of funds because terminals will allow vehicle access to multiple databases including National Crime Information Center databases, New York Statewide Police Information Network databases, Department of Motor Vehicles databases and local Suffolk County databases.	www.co.suffolk.ny.us/departments/sheriff.aspx
Suffolk County Veterans Service Agency	PO Box 6100, 100 Veterans Memorial Highway	Hauppauge	NY	11788	Purchase vans for Mobile Veterans Outreach Unit	Mobile unit assists veterans through facilitating the access of benefits and utilizing available services without having to travel distances to the main offices in Hauppauge or Riverhead, NY.	\$150,000	This project is a valuable use of funds because it will facilitate veterans receive benefits and services across Suffolk County.	www.co.suffolk.ny.us
Suffolk County, New York State Department of Transportation	50 Wolf Road	Albany	NY	12232	Enhancement to Suffolk County bus and bus facilities	Funding will expand fleet by six full sized transit buses. The service expansion buses are scheduled to support anticipated planned service improvements to be drawn from recommendations from a currently underway, NYS DOT/FTA funded transit planning study for SCT operations.	\$1,680,000	This project is a valuable use of funds because it will facilitate public transportation in Suffolk County.	www.nysdot.gov
SUNY College of Environmental Science & Forestry (SUNY-ESF)	1 Forestry Drive, 224 Bray Hall	Syracuse	NY	13210	Technology to combat Asian Long-Horned Beetles in new York Forests	Protects New York's trees from decimation by ALB infestation. ALB has already spread to Long Island, Queens, and Manhattan. ESF uses attractants males use to locate females. 5-7 sites will be established in strategic New York locales. Project proactively baits and kills/neuters ALB before they breed and lay eggs.	\$1,000,000	This project is a valuable use of taxpayer funds because it protects New York's trees from decimation by ALB infestation. ALB has already spread to Long Island, Queens, and Manhattan.	www.esf.edu

Organization Name	Street	City	State	ZIP	Project Name	Project Summary	Amount Requested	Valuable Use of Taxpayer Dollars	Organization Website
SUNY Stony Brook	100 Nichols Road	Stony Brook	NY	11794	Advanced nanocomposite battery materials	This project will enable the use of low intensity, addressable, beamed wireless power to remotely recharge mobile distributed power storage on portable electronics or medical devices. This system will provide continued power to essential portable electronics without human intervention and can be situated large distances away from the receiver. Applications range from eliminating the need for surgical intervention to replacing batteries to implanted biomedical devices, providing emergency power during natural disasters, and ensuring uninterrupted power for military operations.	\$3,400,000	This project is a valuable use of funds because it will enable wireless power to remotely recharge electronics or medical devices.	www.stonybrook.edu
SUNY Stony Brook Southampton	239 Montauk Highway	Southampton	NY	11968	Young American Writers Project	This program is dedicated to mentoring middle and high school students in the development of creative expression and critical thinking through writing by sending professional writers and teachers into Long Island schools with a variety of innovative, inter-disciplinary writing workshops. The program teaches problem solving and global awareness, promotes crucial collaboration and communication skills, enhances creative expression and critical thinking, and introduces students to higher education. Funding will train and employ a larger body of teaching artists expanding the program to more schools across Suffolk County.	\$123,601	This project is a valuable use of funds because it promotes skill development among high school students and introduces them to higher education.	www.stonybrook.edu/mfa/yawp
The Nature Conservancy	P.O. Box 1179 53095 Main Street	Southold	NY	11971	Acquire and remediate 23.5 acre Sill property in Pipe's Cove.	New York State Department of State with assistance from The Nature Conservancy is making an application for CELCP/NOAA funds on behalf of the Town of Southold. The project will acquire and remediate 23.5 acres owned by Julia Sill in Pipe's Cove in Greenport. The properties are one of the last unprotected pieces of the 650 acre greater Pipe's Cove Preserve assemblage.	\$1,250,000	This project is a valuable use of funds because it will acquire and remediate 23.5 acres in Pipe's Cove in Greenport. The properties are one of the last unprotected pieces of the 650 acre greater Pipe's Cove Preserve assemblage.	www.nature.org http://southoldtown.northfork.net
Town of Brookhaven	1 Independence Hill	Farmingville	NY	11738	Improve Hospital Road Bridge	Funding will support needed improvements to Hospital Road Bridge that is inadequate to accommodate traffic including emergency vehicles to Brookhaven Memorial Hospital Medical Center.	\$5,000,000	This project is a valuable use of funds because it will renovate a veterans' facility in Kings Park, NY to ensure public safety and promote accessibility.	www.brookhaven.org/
Town of Brookhaven	1 Independence Hill	Farmingville	NY	11738	Sewer feasibility study	The Ronkonkama Hub transit-oriented development project is the revitalization of a multi-block area with vacant and underutilized parcels around the Ronkonkama Train Station. The development around the Long Island Railroad includes mixed use residential, office, and retail within walking distance to the train station. The proposed sewer district would service the entire Ronkonkama Hub Area, which encompasses 181 acres of land.	\$360,000	This project is a valuable use of funds because the sewer district would service the entire Ronkonkama Hub Area, which encompasses 181 acres of land, spurring economic development.	www.brookhaven.org/
Town of Brookhaven	1 Independence Hill	Farmingville	NY	11738	Stormwater mitigation	Funding will mitigate stormwater on Town of Brookhaven federal-aid roads and repair stormwater outfalls in the Town.	\$1,000,000	This project is a valuable use of funds because it will mitigate stormwater in the Town of Brookhaven.	www.brookhaven.org/
Town of Brookhaven	One Independence Hill	Farmingville	NY	11738	Methane gas recovery demonstration project	As part of the Town of Brookhaven's general landfill operations, gas is collected and combusted. This project would separate landfill gases to produce a clean stream of methane to be routed to generators and generate electricity operation of facilities.	\$100,000	This project is a valuable use of funds because it will separate landfill gases to produce a clean stream of methane to be routed to generators and generate electricity operation of facilities, reducing local costs.	www.brookhaven.org
Town of East Hampton	159 Pantiago Road	East Hampton	NY	11937	Electricity Infrastructure Retrofits	Power lines are an infrastructure component essential to the well-being of the East Hampton. Ensuring that these systems function in the event of a disaster is critical in assisting with a recovery. This project will remove the poles and wires from the overhead position within a "Gateway area" in the Town of East Hampton and buries the wires underground.	\$800,000	This project is a valuable use of funds because ensuring the infrastructure systems function in the event of a disaster is critical in assisting with a recovery and essential to the well-being of the East Hampton.	www.town.east-hampton.ny.us/
Town of East Hampton	159 Pantiago Road	East Hampton	NY	11937	Long Island Coastal Planning Project	This project studies effective uses of sediment from inlets and other sources to enhance environmental habitats, improve the collection and dissemination of data about the movement of sediment, facilitate cooperation among federal and non-federal interests, and assure the most effective use of taxpayer funds. The project will lead to a regional water resource program for Long Island, developed by communities and state agencies in cooperation with the Corps of Engineers. Funds will be used to continue coordination and collaboration with Federal, State, and local partners. Funding would also be used to perform data collection focusing on the western region of the south shore of Long Island and develop a dredging and disposal needs assessment for the interior channels.	\$1,000,000	This project is a valuable use of funds because it studies effective uses of sediment from inlets and other sources to enhance environmental habitats, improve the collection and dissemination of data about the movement of sediment, facilitate cooperation among federal and non-federal interests, and assure the most effective use of taxpayer funds.	www.town.east-hampton.ny.us/index.us
Town of Riverhead	200 Howell Avenue	Riverhead	NY	11901	Magnetic levitation system feasibility study	Technology demonstration in the Town of Riverhead, NY will support additional development of needed high-speed rail systems.	\$500,000	This project is a valuable use of funds because facilitate the development of new transit systems	www.riverheadli.com

Organization Name	Street	City	State	ZIP	Project Name	Project Summary	Amount Requested	Valuable Use of Taxpayer Dollars	Organization Website
Town of Shelter Island	Route 114	Shelter Island	NY	11964	Drinking water infrastructure improvements	Created over 30 years ago by a local resident to provide neighbors with potable water, the water district requires upgrades to handle a rising population and businesses. The system loses approximately 15% of its water to leakage and frequent line breaks are a health concern. In 2009, the ailing infrastructure provided over five million gallons to a customer base that includes three inns, a major restaurant and individual households so the benefiting population is approximately 500 in winter and as many as 6,000 in summer who need to be able to rely on safe and reliable drinking water. Funding will support needed repairs.	\$357,492	This project is a valuable use of funds because it will improve the drinking water infrastructure of the West Neck Water District	www.shelterislandtown.us
Town of Smithtown	99 West Main Street	Smithtown	NY	11787	Energy efficiency improvements for electric grid reliability	The Town of Smithtown will replace their current street lighting components with high efficiency equipment. This change will enable a wattage reduction for each fixture with no reduction in performance resulting in significant reduction of strain on the local electricity grid, improving reliability and providing significant savings in the Town's electrical costs. The Town has long term plans of replacing all 11,700 street lights with high efficiency fixtures.	\$500,000	This project is a valuable use of funds because it enhances efficiency and reliability of energy infrastructure by reducing strain on local electric grid.	www.smithtowninfo.com

Organization Name	Street	City	State	ZIP	Project Name	Project Summary	Amount Requested	Valuable Use of Taxpayer Dollars	Organization Website
Town of Smithtown	99 West Main Street	Smithtown	NY	11787	Improve pedestrian and traffic safety	Funding will make safety improvements roads in the Town of Smithtown with high volumes of vehicles per day and heavy pedestrian activity.	\$495,000	This project is a valuable use of funds because it will make needed improvements to roadways in the Town of Smithtown.	smithtowninfo.com
Town of Smithtown	99 West Main Street	Smithtown	NY	11787	Water infrastructure improvements	The Town will replace 4800 feet of deteriorating water main beneath Moriches Road that is a key transportation route to hospitals, government services and the waterfront. The water main is subject to breaks under modern pressure loads and heavy traffic. The current main would be replaced and sized for modern distribution needs.	\$342,000	This project is a valuable use of funds because it will replace 4800 feet of deteriorating water main beneath Moriches Road that is a key transportation route to hospitals, government services and the waterfront.	smithtowninfo.com
Town of Southampton	116 Hampton Rd.	Southampton	NY	11968	Improve Dune Road	The Dune Road (CR 89) Reconstruction project extends from the Shinnecock Inlet to the Quogue Village and runs parallel to the Atlantic Ocean. Road repairs fail prematurely because of the constant submersion into salt water necessitating the raising of the road in the interest of public safety.	\$5,440,000	This project is a valuable use of funds because raising of Dune Road is in the interest of public safety and will reduce long term repair costs.	http://southamptontownny.gov/
Town of Southampton	116 Hampton Rd.	Southampton	NY	11968	Non-residential structure retrofits	This project will implement a permanent bulkhead to replace the deteriorated barrier built many approximately 50 years ago. The current barrier is functionally obsolete resulting in severe flooding during storms, impacting nearby property, the adjacent road and putting residents at risk.	\$900,000	This project is a valuable use of funds because it will protect life and assets from severe flooding.	http://southamptontownny.gov/
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	ATLANTIC COAST OF NEW YORK MONITORING PROGRAM, NY	Funding will resume the coastal monitoring effort	\$1,000,000	This project is a valuable use of funds because it will resume the Corps' coastal monitoring efforts.	http://www.nan.usace.army.mil/project/newyork/facts/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	ATLANTIC COAST OF NEW YORK MONITORING PROGRAM, NY	Report Language Request: Atlantic Coast of New York Monitoring Program, New York, \$1,000,000. Provided, That the funds appropriated herein, The Secretary, acting through the Chief of Engineers, is directed to continue the monitoring program in collaboration with Stony Brook University.	\$1,000,000	This is a valuable use of taxpayer funds because it promotes collaboration between the Corps and Stony Brook University	http://www.nan.usace.army.mil/project/newyork/facts/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	FIRE ISLAND INLET TO MONTAUK POINT, NY	The Army Corps has invested over a decade of its attention and resources in the reformulation study, and a draft environmental impact statement for this project is scheduled for completion. This study is essential for identifying a solution to reduce risks to human life and property, while maintaining and enhancing ecosystem integrity and coastal biodiversity in this extremely complex environment. Funding will also continue the Westhampton Interim Monitoring and West of Shinnecock Interim Monitoring, and the West of Shinnecock renourishment and Westhampton Interim renourishment.	\$10,800,000	This project is a valuable use of funds because the study is essential for identifying a solution to reduce risks to human life and property, while maintaining and enhancing ecosystem integrity and coastal biodiversity in this extremely complex environment.	http://www.nan.usace.army.mil/project/newyork/facts/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	FORGE RIVER WATERSHED, NY	Funding will be used continue a feasibility study to ascertain and quantify contributions of various causes of impaired river habitat and screen potential environmental and engineering solutions to improve water quality, enhance ecosystem and reduce pollutants entering the watershed.	\$720,000	This project is a valuable use of funds because it will ascertain and quantify contributions of various causes of impaired river habitat and screen potential environmental and engineering solutions to improve water quality, enhance ecosystem and reduce pollutants entering the watershed.	http://www.nan.usace.army.mil/project/newyork/facts/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	GREAT SOUTH BAY, NY	Funding will support preliminary engineering and design for near-future maintenance of the Great South Bay.	\$200,000	This project is a valuable use of funds because it will support preliminary engineering and design for near-future maintenance of the Great South Bay.	http://www.nan.usace.army.mil/project/newyork/facts/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	HASHAMOMUCK COVE, SOUTHOLD, NY	Funding will initiate the feasibility study to identify the threat of coastal storm damages to existing infrastructure, including damages to homes and businesses.	\$100,000	This project is a valuable use of funds because it will initiate the feasibility study to identify the threat of coastal storm damages to existing infrastructure, including damages to homes and businesses.	http://www.nan.usace.army.mil/project/newyork/facts/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	LAKE MONTAUK HARBOR, NY	Lake Montauk Harbor is home to one of the largest commercial fishing fleets in New York, and the waterway supports a major tourism industry providing the backbone of the local economy in the easternmost part of Long Island. Significant shoaling problems cause the Coast Guard difficulties when responding to emergencies from the station at Lake Montauk Harbor. Funding will complete the feasibility phase of this project.	\$172,000	This project is a valuable use of funds because significant shoaling problems cause the U.S. Coast Guard difficulties when responding to emergencies from the station at Lake Montauk Harbor and funding will complete the feasibility phase of this project.	http://www.nan.usace.army.mil/project/newyork/facts/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	LAKE MONTAUK HARBOR, NY	Funding will support environmental stakeholder coordination for this project	\$60,000	This project is a valuable use of funds because it will support environmental stakeholder coordination for the Lake Montauk Harbor project.	http://www.nan.usace.army.mil/project/newyork/facts/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	000 LONG ISLAND INTRACOASTAL WATERWAY, NY	Funding will support caretaker status on this waterway utilized by three U.S. Coast Guard stations for search-and-rescue missions. Many commercial and recreational boaters use this sheltered route along the Atlantic Ocean between three of the south shore inlets as a sheltered route parallel to the Ocean coast line.	\$100,000	This project is a valuable use of funds because it will support caretaker status on this waterway utilized by three U.S. Coast Guard stations for search-and-rescue missions, as well as commercial and recreational boaters.	http://www.nan.usace.army.mil/project/newyork/facts/area1.htm

Organization Name	Street	City	State	ZIP	Project Name	Project Summary	Amount Requested	Valuable Use of Taxpayer Dollars	Organization Website
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	MATTITUCK HARBOR, NY	Funding will support environmental coordination with stakeholders for the Mattituck Harbor project on the Long Island Sound in the Village of Mattituck.	\$60,000	This project is a valuable use of funds because it will support environmental coordination with stakeholders for the Mattituck Harbor project on the Long Island Sound in the Village of Mattituck.	http://www.nan.usace.army.mil/project/newyork/factsh/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	MATTITUCK HARBOR, NY	Funding will complete the design and construction phase of this project to mitigate the effects of the existing navigation project at Mattituck Inlet.	\$1,000,000	This project is a valuable use of funds because it will complete the design and construction phase of this project to mitigate the effects of the existing navigation project at Mattituck Inlet.	http://www.nan.usace.army.mil/project/newyork/factsh/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	MORICHES INLET, NY	This project will support engineering and design for the next maintenance dredging cycled for the inlet, which is heavily used for the important recreational boating industry.	\$500,000	This project is a valuable use of funds because it will support engineering and design for the next maintenance dredging cycled for the inlet, which is heavily used for the important recreational boating industry.	http://www.nan.usace.army.mil/project/newyork/factsh/area1.htm
U.S. Army Corps of Engineers	26 Federal Plaza	New York	NY	10278	SHINNECOCK INLET, NY	Funding will support caretaker status of the inlet.	\$100,000	This project is a valuable use of funds because it will support caretaker status of the inlet vital to commercial and recreational boating and fishing industry.	http://www.nan.usace.army.mil/project/newyork/factsh/area1.htm
Veterans of Foreign Wars Post 3054	8 Jones Street	East Setauket	NY	11733	Renovate veterans' facility	Funding will renovate existing building to ensure continuous service to the community for the next several decades.	\$25,000	This project is a valuable use of funds because it will renovate a veterans' facility to ensure continuous service to the community.	vfwpost3054.com
Veterans of Foreign Wars, William F Taylor Post 9486	55 Lake Shore Road	Lake Ronkonkoma	NY	11779	Renovate veterans' facility	Funding will renovate a 120-year-old building to ensure continuous service to the community for the next several decades.	\$70,000	This project is a valuable use of funds because it will renovate a 120-year-old building operated by veterans to ensure continuous service to the community for the next several decades.	www.vfwpost9486.org
Village of Bellport	29 Bellport Lane	Bellport	NY	11713	Bellport Village Marina	The project will dredge the Bellport Village Marina to improve the depth in the area of the docks and allow emergency and law enforcement boats to dock safely.	\$150,000	This project is a valuable use of funds because it will allow emergency and law enforcement boats to dock safely.	www.bellportvillage.org
Village of East Hampton	86 Main Street	East Hampton	NY	11937	Improvements to NYS Route 114	Funding will be used to design and construct a roundabout to improve safety at the intersection of NYS Route 114 and Toilsome Lane in the Village of East Hampton	\$1,200,000	This project is a valuable use of funds because it will improve safety in the Village of East Hampton	easthamptonvillage.org
Village of Nissequogue	631 Moriches Road	St. James	NY	11780	Mobile data terminals	Funding will facilitate purchase of Mobile Data Terminals for patrol cars to be wirelessly linked to the Suffolk County Computer Aided Dispatch system and the National Crime Information Center (NCIC) to enhance patrol efficiency and officer safety.	\$45,000	This project is a valuable use of funds because terminals will allow vehicle access to multiple databases including the Suffolk County Computer Aided Dispatch system and the National Crime Information Center (NCIC)	
Village of Old Field	207 Old Field Road	Setauket	NY	11733	Wastewater infrastructure improvements at the Old Field Lighthouse	The Old Field Lighthouse is utilized and maintained by the U.S. Coast Guard and is located on federal parkland. The lighthouse is one of seventeen working lighthouses on Long Island. Installation of a new septic system will reduce point source pollution into Long Island Sound.	\$181,500	This project is a valuable use of funds because installation of a new septic system will reduce point source pollution into Long Island Sound.	www.oldfieldny.org
Village of Patchogue	14 Baker Street	Patchogue	NY	11772	Handicap accessibility improvements	As an economic anchor for the community, Patchogue Theatre requires handicap accessibility improvements, including new seats to improve accommodations and sustain its economic impact on the area.	\$420,000	This project is a valuable use of funds because handicap improvements will facilitate accessibility and sustain the economic impact on the Patchogue area.	www.patchoguevillage.org
Village of Patchogue	14 Baker Street	Patchogue	NY	11772	Water infrastructure retrofits	The Village's FEMA approved Floodplain Management and Hazard Mitigation Plan identifies specific areas prone to local flooding. Funding will support improvements, including a new storm water collection, retention and recharge system.	\$500,000	This project is a valuable use of funds because it will provide specific relief to areas prone to local flooding.	www.patchoguevillage.org
Village of Port Jefferson	121 West Broadway	Port Jefferson	NY	11777	Mill Creek watershed improvements and habitat restoration	LAWRENCE AVIATION INDUSTRIES, INC. SUPERFUND SITE, \$5,000,000. Provided, that the funds appropriated herein, the Administrator is directed to continue remediation of the superfund site in collaboration with the Village of Port Jefferson, New York.	\$5,000,000	This project is a valuable use of funds because it will expedite the cleanup of the areas in and around the Lawrence Aviation Industries, Inc. superfund site.	portjeff.com
Village of Sag Harbor	55 Main Street	Sag Harbor	NY	11963	Roadway improvements	Funding will improve existing roadways to establish a contiguous series of pedestrian amenities, address hazardous conditions and provide the public with safe walking routes.	\$159,720	This project is a valuable use of funds because it will improve existing roadways to establish a contiguous series of pedestrian amenities, address hazardous conditions and provide the public with safe walking routes in the Village of Sag Harbor.	www.sagharborny.gov
Village of Sagaponack	3175 Montauk Highway	Sagaponack	NY	11962	Non-structural retrofits	The Village of Sagaponack has requested funds from FEMA for a Nor'Easter in November, 2009 (DR-1869-NY). This request for funding focuses on areas of the beach damaged by a more recent storm that further impacted the shoreline already damaged in the November Nor'Easter.	\$500,000	This project is a valuable use of funds because it will protect life and assets from storm damage and flooding.	

Organization Name	Street	City	State	ZIP	Project Name	Project Summary	Amount Requested	Valuable Use of Taxpayer Dollars	Organization Website
Village of Southampton	23 Main Street	Southampton	NY	11968	Emergency dispatch consoles	Funds are requested to replace the Village of Southampton Police Department's obsolete emergency dispatch console. The console is no longer supported by the manufacturer and replacement parts are difficult to obtain.	\$200,000	This project is a valuable use of funds because it will replace the Village of Southampton Police Department's obsolete emergency dispatch consoles.	www.southamptonvillage.org
Village of Southampton	23 Main Street	Southampton	NY	11968	Stormwater mitigation improvements	Funding will improve stormwater infrastructure to reduce water quality impairments	\$1,200,000	This project is a valuable use of funds because it will improve stormwater infrastructure to reduce water quality impairments in the Village of Southampton	www.southamptonvillage.org
